THE RE-FLEX[®] POINT

THE REVOLUTIONARY "REFLEX" POINT FROM one80 IS GOING TO RE-DEFINE STEEL TIP DARTS. MEASURING AT ONLY 1.5MM IN DIAMETER, IT IS CONSIDERABLY THINNER THAN STANDARD STEEL TIP POINTS. NOT ONLY DO THE DARTS STICK MUCH MORE SOLIDLY IN THE BOARD THAN STANDARD POINTS, WHICH GREATLY REDUCES THE CHANCE OF A DART "FALLING OUT" OF THE BOARD, BUT DUE TO ITS THIN DIAMETER AND UNIQUE PATENTED CHEMICAL COMPOSITION, IT ALLOWS THE POINT TO BEND (ITS FLEXIBILITY IS THE REVOLUTIONARY ASPECT OF THESE POINTS) IN A SIMILAR WAY TO SOFT TIPS. THIS ENABLES THE DARTS TO LITERALLY BEND AWAY WHEN GROUPED CLOSE TO ANOTHER DART, GREATLY REDUCING THE CHANCES OF BAD DEFLECTIONS, BOUNCE OUTS, HITTING THE FIRST OR SECOND DART OUT OF THE BOARD, AND THEREFORE ENCOURAGES A MUCH CLOSER GROUPING OF THE DARTS.

APART FROM THE OBVIOUS MECHANICAL ADVANTAGES OF THESE POINTS, THEY WILL ALSO GIVE THE PLAYER A MENTAL BOOST IN CONFIDENCE THAT YOU CAN AIM DIRECTLY AT YOUR FIRST OR SECOND DART, WITH THE CONFIDENCE THAT YOU WILL HAVE A MUCH LESS CHANCE OF GETTING A BAD DEFLECTION, OR HITTING THE TARGET DART OUT OF THE BOARD.

RE-FLEX POINT ADVANTAGES:

- TIGHTER GROUPING OF YOUR DARTS
- GREATLY REDUCED CHANCE OF DARTS "FALLING OUT" OF THE BOARD
- GREATLY REDUCED CHANCE OF BOUNCE OUTS
- A BIG MENTAL CONFIDENCE BOOST

THE ELONGATED ELLIPTICAL NOSE OF THIS CLASSICAL AIRFOIL SHAPE IS NOT ONLY ELEGANT BUT VERY FUNCTIONAL FOR CLOSE GROUPING. THE RINGING IS OF THE OLDEST TRADITIONAL STYLE AND IS STILL ONE OF THE BEST COMBINATIONS OF GRIP AND CONTROLLED RELEASE.

REVENGE

THE DART UTILISES THE NEW INNOVATIVE DESIGN PRODUCED BY ONE80, COMPRISING OF THE 1.5MM DIAMETER RE-FLEX POINT. THIS ALLOWS ROOM FOR AN INVERSE CURVE ON THE TAPER TO FIT THE LEADING FINGER. THE SHARK TOOTH RINGS AT THE FRONT OF THE BARREL ENHANCE THE FEELING OF SECURITY FOR THE PLAYERS.

REFLUX

THIS IS OUR LATEST HIGH-TECH TUNGSTEN DART AND FEATURES A SPECIAL "RIPPLING" FINISH AT THE BACK TO GIVE A SOFT GRIP FEELING WITHOUT ANY DANGER OF THE FINGER "STICKING" TO THE DART. THE SPECIAL FRONT LOADED SHAPE PROVIDES FLIGHT STABILITY TO THE DART PLAYER.

RECTIFIER

THIS DART ALLOWS A CONSISTENT ACCURATE PLACEMENT OF THE FINGERS WITH A SURFACE SHAPED TO FIT THE FINGER TIPS, ENABLING ACCELERATION WITHOUT THE PLAYERS GRIP TIGHTENING ON THE DART. THE CURVED FRONT END MINIMIZES THE DEFLECTION OF THE DARTS AND RESULTS IN CLOSE GROUPING.

UM DART

This Legendary dart broke new ground as the first dart to be made in a diameter of 5.65 mm with a normal 2BA thread for all standard points and shafts. The wall thickness on the thread of nearly 0.5 mm could only be achieved by using exceptionally high quality tungsten and top craftsmanship in cutting the thread. The dart has won world championships in softdart in the hands of several players and is to this day unsurpassed in its flight quality.

XL DART

Only one word is needed to describe this dart – "Elegance". The dart is minimally thicker than the usual 6.35mm darts, measuring 6.65 at its widest point. This has enabled us to create an aerodynamic wing profile without increasing the blockage effect. The center of gravity is moved towards the point resulting in increased flight leverage and greater stability. The longitudinal cuts at the front locate the fingers but allows a free release at the end of the throw.

Break the Routine, Overturn the convention! Rules, they say, are meant to be broken. Sometimes the lack of flexibility hinders our creativity. It has been generally accepted that a set of darts comes in a set of 3-well we need three darts to play a game, but what happens if one of the darts gets broken or lost? Then you have to buy a new set of darts all over again. In this regard, we offer package of three darts as well as package of one dart for different needs. Break the rules, be a rebel!

This historic dart design was used by the first World Professional Champion in 1979. The long taper with fine rings at the back of the dart makes perfect contact with the index fingers and thumb and the weight distribution to the front of the dart gives great flight stability. This is a dart for great champions and wonderfully easy to throw for amateurs.
