2018 PRODUCT LAUNCH

E L Y  S I A N

FOURTH EDITION

STEP BEYOND

E L Y S I A N

F O U R T H E D I T I O N

With only 200 steel-tip and 200 soft-tip sets, we are delighted to bring you the fourth edition of Elysian. The Elysian 4 was all about creating a grip that has never been seen before, yet provides the ultimate synergy between the thrower and the barrel.

The front of the barrel introduces our new Cell grip which features 192 intricately

machined hexagons bevelled at a 45 degree angle for confident grip both radially and axially. The rear of the barrel features Target's new Cilia grip. Machined onto a micro-cut base, this intricate grip is characterised by its textured & contoured weave-like structure with different grip flow to provide a mild yet assured grip.

STEP BEYOND

DAYTONA GT FIRE

An extension of the Daytona range, Daytona GT shares the same distinctive Trapezoidal grip technology precision machined into 95% pure tungsten. Overlaid with a sporty blue Titanium Nitride performance coating, to enhance grip and provide your barrel with long lasting protection.

Technically perfect, visually stunning - Daytona GT is conditioned for the most sophisticated grip, and set off with the Carbon Ti shaft and grooved Storm point for an elegant finish. Available in 3 steel-tip barrel shapes to provide the ideal solution for your individual grip.

POWER 9FIVE

GENERATION 5

STEP BEYOND

POWER 9FIVE

GENERATION 5

The Power 9Five G5, developed for Phil 'The Power' Taylor – 16 times Champion of the World. Phil bowed-out of the PDC circuit at the start of 2018 and wanted to continue his journey with a dart that he felt reflected his experience & dedication throughout his career. Balanced for the stacking style of play 'The Power' is known for, each barrel has been cut with the stunning Trapezoidal Grip technology to offer outstanding levels of grip and feel.

The barrel is then hand sandblasted to create a distinct matte texture for improved grip at the rear, and laser etched with Phil's signature and Target Logo. Coated in a Blush Gold & Black PVD Titanium Nitride to provide long lasting barrel protection and enhanced grip. Finished with Ultra.Ghost + flight, Power Titanium G5 Shaft and Diamond Pro Point

CARBONITE

TARGET

STEP BEYOND

CARBON Ti

Combining the exotic, high performance materials Titanium and Carbon into one unique shaft system. Carbon shafts are becoming increasingly popular, their drawback being expensive to maintain. Our new system brings the benefits of Carbon shafts whilst reducing the cost. The Titanium component attaches to your dart barrel and is available in

3 lengths. The Carbon top is just that, a top which is available in only one length and fits into the Titanium base. The Titanium base is unbreakable and so the only replaceable component is the Carbon top which is far less expensive than replacing an entire Carbon Shaft.
