JANUARY - JULY 2020

GABRIEL CLEMENS

GERMAN GIANT

Crafted with Gabriel Clemens to his exact specifications, the 'German Giant' worked closely with Target's team of designers to ensure the barrel was perfect for his style of play. The result is his Gen 1 dart.

The 90% Tungsten barrel design is dictated by the way Gabriel holds his dart. It features a tapered cut and combines radial

grooves at the rear with nano-grip technology at the front thus presenting a unique grip and feel.

The barrel is additionally tailored with Target's pioneering Storm Nano Point, a uniquely devised and fully machine point offering reduced flight deflections and the ultimate finger grip.

BOLIDE

The Bolide range features 5-barrel designs providing a solution for all grips and playing styles. Intricately constructed with precise radial grooved cuts and a hand-sandblasted coating gives the dart added grip and feel. Each barrel is

finished with a yellow Pro Grip shaft and eye-catching flight exclusively designed for the range.

The collection is tailored with Target's Swiss Point system and soft tip.

SWISS POINT ACCESSORIES

SWISS POINT SAFE

The Swiss Safe allows you to store and change Swiss Points with ease.

Made from milled aluminium, the card fits up to 5 sets of points and secures them in place by

magnetic strips. The device also features a Swiss Point tool allowing you to switch your point length, style and colour in seconds without the need of another appliance.

SWISS

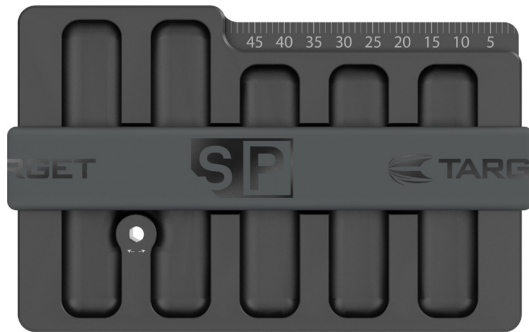

Swiss Point is a patented interchangeable point system which allows you to switch your point length, style and colour in

seconds with the pocket-sized Swiss Point tool being all you need to remove and install your points.
