

THE BOOK OF DARTS 2009

TO OUR CUSTOMERS...

Our aim is to make trading with Unicorn easy

We try very hard to have an appreciation of our customers' problems and to have a minimum of rules

We feel the stating of our policies will make it easier and more profitable for our customers to deal with Unicorn

1. WARNING

DARTS IS AN ADULT SPORT. IT IS DANGEROUS FOR CHILDREN TO PLAY WITHOUT SUPERVISION. WE RECOMMEND THAT A DEALER SHOULD EXERCISE DISCRETION WHERE ANY SALE MIGHT RESULT IN CHILDREN PLAYING WITHOUT ADULT SUPERVISION

2. DISTRIBUTION

We are geared to supply goods to accredited retailers only and thus cannot give satisfaction to clubs or individuals, whom we refer to local dealers, anxious and ready to provide a prompt and complete service

3. SPECIFICATIONS

We have taken every care to ensure that the information detailed in this

catalogue is truthful and accurate.

All weights and sizes are approximate and for guidance and comparison only. Should circumstances arising subsequent to publication render as unavoidable some changes in production, Unicorn Products Limited reserves absolute discretion to make these or any other changes they deem necessary without notice or obligation

4. PRODUCT IMPROVEMENT

Continuous research and development will bring about changes in design, material and arrangement of our products during the life of this catalogue. We shall pass to our customers such benefits or improvements as they occur by delivering the latest version of any product. Such improvements or modifications as may be introduced do not place us under any obligation to make similar changes in articles sold before the date of introduction

5. STANDARD PACKS

Many of the items in this catalogue are prepacked in convenient size standard packs. The standard pack has been selected for ease of stocking and ordering, economy in production

and to ensure safe transit of the contents. For these reasons we cannot split standard packs and where orders call for other than standard packs we shall adjust the order to the nearest pack quantity

6. GUARANTEE

It is our aim to ensure the complete satisfaction of our customers and in case of a genuine complaint as to the quality of our goods, we shall be anxious to rectify any fault of our own free will and at our discretion only

7. IMITATIONS

The design, construction and trade names of most of our products are protected by patents, design registrations, trade marks, copyrights and/or pending applications and rigorous action will be taken against all infringers to protect both dealer and users from imitation

8. ACCEPTANCE OF ORDER

All orders are accepted by us on the understanding that our Conditions of Sale as stated in our current price list form the basis of the Contract of Sale entered into by the placing and acceptance of such orders

EVOLUTION OF THE POWER

Mr Philip Taylor. You don't have to be Einstein to know that generations to come will scarce believe that such a one as The Power ever in flesh and blood walked upon this earth.

The Greatest Dart Player of his Generation and probably, simply The Greatest.

Phil "The Power" Taylor. 13 Times Champion of The World, winner of countless national and international titles throughout his illustrious, swash-buckling career.

Phil's darting odyssey with Unicorn started in 1996. Now, for the first time, we chart his progress as we have worked with him to continually refine, develop and improve his darts equipment. The darts available in the Evolution of The Power Series are the very barrels that Phil himself uses and has used to such stunning effect. The items illustrated here are the specific weights used by Phil, reproduced precisely to his personal specification.

Phase 1 - 1996 to 1999

World Champion Series 90% Tungsten. Natural or Golden finish.

Phase 2 - 1999 to 2007

Purist 90% Tungsten. Natural or Golden finish.

Deep machined extra grip to rear of World Champion barrel

Phase 3 - 2003

Purist Curve. 90% Tungsten. Natural or Golden finish.

Rear biased ring grip replaced with thumb detent

Phase 4 - 2008

Sigma Pro 97% Natural Tungsten

After a difficult 2007, Phil worked intensively with the UniBoffin and started competing with Sigma Pro. A brave, radical departure for Phil, moving from a deeply machined, slender, parallel pattern to perfectly balanced, torpedo shaped Sigma Pro complete with Sigma Pro shafts.

Phase 5 - 2008 & on

The Power Phase 5 - taking the shape from Sigma Pro and the grip from his battle proven Purists, Phil's return to form has been nothing short of astonishing.

Now available for the first time on global release, Phil Taylor Evolution of The Power Phase 5 darts. 95% Tungsten, available in Natural or Golden Titanium Tungsten finishes. Complete with Phase 5 Titanium shafts and exclusive Power slim flights. Phase 5 barrels and shafts are laser engraved and supplied in a unique Phase 5 superior wallet.

Try them. Because if you don't, you'll always wonder: What if?

AUTHENTIC

Rumours abound that Unicorn make their players use specific darts or configurations for commercial purposes.

Not so.

When joining Team Unicorn, we work with all players from Generation 180 to World Champion to produce the dart that works for the player. We are motivated by success and strive to give the player whatever equipment improves their game in the deeply competitive environment of 21st Century Professional darts. AUTHENTIC darts only come to market when the player is happy that we have met or exceeded their demands.

The Unicorn AUTHENTIC range brings together for the first time the actual, precise, genuine barrels that Team Unicorn players use. We never fail to be fascinated by player feedback, producing the AUTHENTIC range which demonstrates such a wide variety of grips, shapes and balances.

(Please note that Team Unicorn dart development is a continuous process. The barrels illustrated are those in use by our players at the time of preparation of this Book of Darts.)

SPECIALIST

We never stop listening, learning, thinking, winning. Engineering is Unicorn's DNA and Unicorn have been the first to market the majority of innovations in darts technology over 70 years.

The SPECIALIST range is your glimpse directly into the UniLab. Here we bring cutting edge concepts to your skilled hands for your trial and approval.

Each dart in the SPECIALIST range earns it's place with different, unique, performance enhancing features.

Using the principles of UniLab, the Sigma range of darts has been designed from the outset with barrel, shaft and flight all mathematically matched to form an optimum aerodynamic unit, specified to give true flight and greater accuracy.

All Sigma darts are laser engraved with unique serial numbers and their precise weight.

"Why are darts sold by weight, not length?" asked one of our correspondents. And we thought, what a very good point!

Say "Hello" to Stretch, the dart range catering for players more interested in barrel length than weight. All stretch barrels offer the slimmest diameter, the specified weight is achieved by extending the barrel and using materials of different densities.

Unicorn's longest barrel was around 54 mm. Now, Unicorn 2009 offers increased lengths up to 67 mm (Steel Tip) or 74 mm (Soft Tip)

There's more to Stretch than meets the eye - whilst the grip is the same pattern, it becomes more aggressive towards the back of the barrel where our research reveals that more and more players are holding their darts.

All Steel Tip Stretch barrels feature a rotating point allowing thrown darts to move out of the way of incoming darts.

EVOLUTION OF THE POWER

Mr Philip Taylor. You don't have to be Einstein to know that generations to come will scarce believe that such a one as The Power ever in flesh and blood walked upon this earth.

The Greatest Dart Player of his Generation and probably, simply The Greatest.

Phil "The Power" Taylor. 13 Times Champion of The World, winner of countless national and international titles throughout his illustrious, swash-buckling career.

Phil's darting odyssey with Unicorn started in 1996. Now, for the first time, we chart his progress as we have worked with him to continually refine, develop and improve his darts equipment. The darts available in the Evolution of The Power Series are the very barrels that Phil himself uses and has used to such stunning effect. The items illustrated here are the specific weights used by Phil, reproduced precisely to his personal specification.

Phase 1 - 1996 to 1999

World Champion Series 90% Tungsten. Natural or Golden finish.

Phase 2 - 1999 to 2007

Purist 90% Tungsten. Natural or Golden finish.

Deep machined extra grip to rear of World Champion barrel

Phase 3 - 2003

Purist Curve. 90% Tungsten. Natural or Golden finish.

Rear biased ring grip replaced with thumb detent

Phase 4 - 2008

Sigma One 97% Natural Tungsten

After a difficult 2007, Phil worked intensively with the UniBaffin and started competing with Sigma One Soft. A brave, radical departure for Phil, moving from a deeply machined, slender, parallel pattern to perfectly balanced, torpedo shaped Sigma One complete with Sigma One shafts.

Phase 5 - 2008 & on

The Power Phase 5 - taking the shape from Sigma Pro and the grip from his battle proven Purists, Phil's return to form has been nothing short of astonishing.

Now available for the first time on global release, Phil Taylor Evolution of The Power Phase 5 darts. 95% Tungsten, available in Natural or Golden Titanium Tungsten finishes. Complete with Phase 5 Titanium shafts and exclusive Power slim flights. Phase 5 barrels and shafts are laser engraved and supplied in a unique Phase 5 superior wallet.

Try them. Because if you don't, you'll always wonder: What if?

SOFT TIP

AUTHENTIC

Rumours abound that Unicorn make their players use specific darts or configurations for commercial purposes.

Not so.

When joining Team Unicorn, we work with all players from Generation 180 to World Champion to produce the dart that works for the player. We are motivated by success and strive to give the player whatever equipment improves their game in the deeply competitive environment of 21st Century Professional darts. AUTHENTIC darts only come to market when the player is happy that we have met or exceeded their demands.

The Unicorn AUTHENTIC range brings together for the first time the actual, precise, genuine barrels that Team Unicorn players use. We never fail to be fascinated by player feedback, producing the AUTHENTIC range which demonstrates such a wide variety of grips, shapes and balances.

(Please note that Team Unicorn dart development is a continuous process. The barrels illustrated are those in use by our players at the time of preparation of this Book of Darts.)

UNICORN. WORLD CHAMPIONS. 20 TIMES.

UNICORN - THE DARTBOARD COMPANY

AS YOU WOULD EXPECT FROM UNICORN - THE DARTBOARD COMPANY, WE MAKE AVAILABLE A FULL RANGE OF BRISTLE, ELECTRONIC AND COILED PAPER DARTBOARDS, MAKING THE UNICORN DARTBOARD RANGE THE INDUSTRY STANDARD FOR PERFORMANCE, INNOVATION AND VALUE.

THE ECLIPSE ADVANTAGE!

AS SEEN ON TV

PDC confirms it's selection of Unicorn bristle boards until 2011!

ECLIPSE® PRO DARTBOARD

- Championship quality bristle board
- PDC endorsed
- World Champions endorsements
- Designed to maximise averages
- Unicorn high technology wiring design
- Completely staple-free construction
- Ultra-slim segmentation system – 30% thinner than conventional round wire boards
- Increased high target area – especially in Doubles and Trebles
- Ultra high visibility number ring and spider
- Staple-free Bullseye
- Free 'Checkout Chart'
- Free measuring tape

ECLIPSE® PRO

There are many dartboards available for the discerning player to choose. There is only one dartboard, the Eclipse Pro from Unicorn, that is chosen year after year by the PDC to be used exclusively in all televised tournaments around the World. The unprecedented professional tournament play that Unicorn Eclipse boards endure provides invaluable feedback to Unicorn's engineers to monitor and continually improve Eclipse construction and performance.

TV cameras are unforgiving and the superlative live performance of Eclipse boards is visible and known to millions of viewers around the World.

The Smart Segments used in all Eclipse family boards use Minimum Metal for Maximum Target, actively improving scoring averages and checkout ratios and minimising bounceouts.

At the highest level of the professional sport of darts, Unicorn Eclipse boards give you that vital edge to maximise scores in an ultra-low bounceout environment. Players and surveys around the World consistently rate the Unicorn Eclipse Pro as the finest board available from any manufacturer, bar none.

ECLIPSE® PRO TRAINER

As used by Team Unicorn Members, the Eclipse Pro Trainer features ultra-slim doubles and trebles some 40% narrower than the Eclipse Pro match board. Ultra slim targets step up a player's game in practise, requiring astonishing accuracy, consistency and control. Eclipse Pro Trainer also features a new Micro Bull for training torture.

ECLIPSE® PRO TRAINER

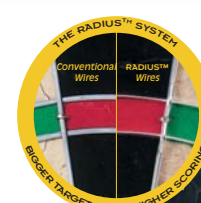

- Dedicated practise board with specially designed Spider
- Uses exactly the same materials and construction as the standard Eclipse Pro board

PHIL TAYLOR SAYS...
I practise now on an Eclipse Pro Trainer. If you're serious about your game, this is a must have.

RADIUS™ DARTBOARD

- Long life Tournament quality bristle board
- PDC endorsed
- Integrated spider construction
- Double pyramid radial wires help to hold the spider securely in place
- Ellipse section circumferential wires increase playing area and eliminate twisting
- Staple free Bullseye
- FREE checkout chart
- FREE measuring tape

eBristle®

Purists recognize that the most satisfying game of darts is played on a traditional bristle dartboard. With boards of Eclipse construction, bounce outs are minimized and players can work on maximising averages.

Electronic, self-scoring, dartboards have been available for many years using darts with a plastic point that lodge in holes in the playing surface. However, bounce outs tend to be a regular, accepted part of the game.

Unicorn introduce eBristle dartboards, the latest generation of electronic bristle boards

featuring the advantage of a bristle rich playing surface with the fun and convenience of auto scoring. Now, you no longer need alternate sets of steel and soft tip darts, with a Unicorn eBristle board, enjoy the look and feel of a bristle board and the consistency of using your regular darts of choice.
