UNICORN. WE NEVER STOP! LISTENING. THINKING. LEARNING. WINNING.

UNICORN. WORLD CHAMPIONS. 28 TIMES [www.unicorn-darts.com](http://www.unicorn-darts.com)

## Mr Philip Taylor.

### The Greatest Dart Player of his Generation and probably, simply The Greatest.

Phil "The Power" Taylor. 15 Times Champion of The World, winner of countless national and international titles throughout his illustrious, swash-buckling career.

Phil's darting odyssey with Unicorn started in 1996. Now, we chart his progress as we have worked with him to continually refine, develop and improve his darts equipment.

The darts available in the **Evolution of The Power Series** are the very barrels that Phil himself uses and has used to such stunning effect. The items illustrated here are the specific weights used by Phil, reproduced precisely to his personal specification.

Try them. Because if you don't, you'll always wonder: What if?

# EVOLUTION OF THE POWER

PHASE 5 ROSSO. LIKE A RED RAG TO A BULL!

# AUTHENTIC

Rumours abound that Unicorn make their players use specific darts or configurations for commercial purposes. Not so.

When joining Team Unicorn, we work with all players from Generation 180 to World Champion to produce the dart that works for the player. We are motivated by success and strive to give the player whatever equipment improves their game in the deeply competitive environment of 21st Century Professional darts.

AUTHENTIC darts only come to market when the player is happy that we have met or exceeded their demands.

The Unicorn AUTHENTIC range brings together the actual, precise, genuine barrels that Team Unicorn players use. We never fail to be fascinated by player feedback, producing the AUTHENTIC range which demonstrates such a wide variety of grips, shapes and balances.

Please note that Team Unicorn dart development is a continuous process. The barrels illustrated are those in use by our players at the time of preparation of this Book of Darts.

## WORLD CHAMPION BLACK TITANIUM 90% TUNGSTEN

Professional darts has never been so competitive.

The pressure and rewards are intense and players are looking for an edge to give them that unfair advantage.

Unicorn Black Titanium – the no expense spared exclusive new series. Physical vapour deposition gives an ultra hard surface with superb grip, feel and durability. Black Series are equipped with 100% Titanium Black shafts to continue the same seamless grip further down the throw.

If you are serious about your darts you owe it to yourself to try the very best – Unicorn Black Titanium.

We never stop listening, thinking, learning, winning. Engineering is Unicorn's DNA and Unicorn have been the first to market the majority of innovations in darts technology over 70 years. The SPECIALIST range is your glimpse directly into the UniLab. Here we bring cutting edge concepts to your skilled hands for your trial and approval. Each dart in the SPECIALIST range earns its place with different, unique, performance enhancing features.

## SIGMA RANGE

Using the principles of UniLab, the Sigma range of darts has been designed from the outset with barrel, shaft and flight all mathematically matched to form an optimum aerodynamic unit, specified to give true flight and greater accuracy.

All Sigma darts are laser engraved with unique serial numbers and their precise weight. Read more about Unicorn and register your Sigma darts at [www.unicorn-darts.com](http://www.unicorn-darts.com).

## Sigma XL Pro & Super Pro. The bar. Raised.

Sigma XL - Sigma Pro accuracy and balance but with a longer barrel. A laws-of-physics defying dart that has only been made possible by introducing ultra-lightweight magnesium shaft alloys and the revolutionary screw-in ZeroD Titanium nose cone designed to reduce deflections and facilitate point exchange. The 95% tungsten Sigma XL is available in two aerodynamically-optimised versions:

TECH HEAD? UNIBOFFIN AT [www.unicorn-darts.com](http://www.unicorn-darts.com)

"Why are darts sold by weight, not length?" asked one of our correspondents. And we thought, what a very good point!

Stretch is the dart range catering for players more interested in barrel length than weight. All stretch barrels offer the slimmest diameter, the specified weight is achieved by extending the barrel and using materials of different densities. Unicorn's longest barrel was around 54 mm. Stretch offers increased lengths up to 67 mm.

There's more to Stretch than meets the eye - whilst the grip is the same pattern, it becomes more aggressive towards the back of the barrel where our research reveals that more and more players are holding their darts.

All Steel Tip Stretch barrels feature a rotating point allowing thrown darts to move out of the way of incoming darts.

## Mr Philip Taylor.

### The Greatest Dart Player of his Generation and probably, simply The Greatest.

Phil "The Power" Taylor. 15 Times Champion of The World, winner of countless national and international titles throughout his illustrious, swash-buckling career.

Phil's darting odyssey with Unicorn started in 1996. Now, we chart his progress as we have worked with him to continually refine, develop and improve his darts equipment.

The darts available in the **Evolution of The Power Series** are the very barrels that Phil himself uses and has used to such stunning effect. The items illustrated here are the specific weights used by Phil, reproduced precisely to his personal specification.

Try them. Because if you don't, you'll always wonder: What if?

# EVOLUTION OF THE POWER

PHASE 5 ROSSO. LIKE A RED RAG TO A BULL!

# AUTHENTIC

Rumours abound that Unicorn make their players use specific darts or configurations for commercial purposes. Not so.

When joining Team Unicorn, we work with all players from Generation 180 to World Champion to produce the dart that works for the player.

We are motivated by success and strive to give the player whatever equipment improves their game in the deeply competitive environment of 21st Century Professional darts.

AUTHENTIC darts only come to market when the player is happy that we have met or exceeded their demands.

The Unicorn AUTHENTIC range brings together the actual, precise, genuine barrels that Team Unicorn players use. We never fail to be fascinated by player feedback, producing the AUTHENTIC range which demonstrates such a wide variety of grips, shapes and balances.

Please note that Team Unicorn dart development is a continuous process. The barrels illustrated are those in use by our players at the time of preparation of this Book of Darts.

## WORLD CHAMPION BLACK TITANIUM

80%/90% TUNGSTEN

Professional darts has never been so competitive.

The pressure and rewards are intense and players are looking for an edge to give them that unfair advantage.

Unicorn Black Titanium – the no expense spared exclusive new series. Physical vapour deposition gives an ultra hard surface with superb grip, feel and durability. Black Series are equipped with 100% Titanium Black shafts to continue the same seamless grip further down the throw.

If you are serious about your darts you owe it to yourself to try the very best – Unicorn Black Titanium.

## HERE COME THE GIRLS!

Darts is an inclusive sport with ladies all over the World competing day in day out.

We are delighted that World Champion Anastasia Dobromyslova has joined Team Unicorn as she fights her way up the PDC Order of Merit.

Ana is spearheading our approach with her own World Champion range supported by Irina, Tricia, Laura & Steffi. Technical darts for technical players provide a range of styles, grips, finishes and weights all with Hero endorsement.

For real style on the Oche, take a look at our Autograph Collection of darts, wallets, shafts and flights. Designed with looks and features in mind, they are definitely darts to be seen with!

## ECLIPSE ON TV

There are many dartboards available for the discerning player to choose. There is only one dartboard, the Eclipse Pro from Unicorn, that is chosen year after year by the PDC to be used exclusively in all televised tournaments around the World.

The unprecedented professional tournament play that Unicorn Eclipse boards endure provides invaluable feedback to Unicorn's engineers to monitor and continually improve Eclipse construction and performance.

TV cameras are unforgiving and the superlative live performance of Eclipse boards is visible and known to millions of viewers around the World.

All Eclipse boards use Minimum Metal for Maximum Target, actively improving scoring averages and checkout ratios and minimising bounceouts.

At the highest level of the professional sport of darts, Unicorn Eclipse boards give you that vital edge to maximise scores in an ultra-low bounceout environment.

Players and surveys around the World consistently rate the Unicorn Eclipse Pro as the finest board available from any manufacturer, bar none.

As you would expect from Unicorn - The Dartboard Company, we make available a full range of Bristle, Electronic and Coiled Paper dartboards, making the Unicorn Dartboard Range the Industry Standard for performance, innovation and value.

## ECLIPSE® PRO TRAINER

As used by Team Unicorn Members, the Eclipse Pro Trainer features ultra-slim doubles and trebles some 40% narrower than the Eclipse Pro match board. Ultra slim targets step up a player's game in practice, requiring astonishing accuracy, consistency and control. Eclipse Pro Trainer also features a new Micro Bull for training torture.

## ELECTRONIC DARTBOARDS

Purists recognize that the most satisfying game of darts is played on a traditional bristle dartboard. With boards of Eclipse construction, bounce outs are minimized and players can work on maximising averages.

Electronic, self-scoring, dartboards have been available for many years using darts with a plastic point that lodge in holes in the playing surface. However, bounce outs tend to be a regular, accepted part of the game.

Unicorn introduce eBristle dartboards, the latest generation of electronic bristle boards featuring the advantage of a bristle rich playing surface with the fun and convenience of auto scoring. Now, you no longer need alternate sets of steel and soft tip darts, with a Unicorn eBristle board, enjoy the look and feel of a bristle board and the consistency of using your regular darts of choice.

## DXM FLIGHTS

Bespoke development, testing and engineering between Phil, the UniBoffin and Unicorn result in the unique DXM flight shape. Perfectly matched to Phil's technique and Phase 5 darts, Phil has already demonstrated DXM effectiveness repeatedly on live TV. Be warned! As the surface area of the flight decreases, you gain greater board visibility but the darts can be less stable. You need to be absolutely at the top of your game to get maximum advantage out of smaller flights!

**X** XTRA 36.323cm<sup>2</sup>  
For accurate players, the unique Xtra shape allows the closest groupings.

**S** SLIM 32.846cm<sup>2</sup>  
Lightweight Flights for lighter weight Darts, especially soft tip where they're used by most of Unicorn's top players.

**B** BIG WING 44.741cm<sup>2</sup>  
These Extra Large Flights (+13% bigger than Plus shape) give Extra Lift and are becoming increasingly popular with top players.

**P** PLUS 39.614cm<sup>2</sup>  
The original Unicorn Flight shape that's now copied as a standard shape worldwide as it's an ideal general purpose flight that suits all styles of play and Dart/Shaft combinations.

Flights are supplied blister carded, 12 sets per pack.
