## DXM Flights

Bespoke development, testing and engineering between Phil, the UniBoffin and Unicorn result in the unique DXM flight shape. Perfectly matched to Phil's technique and Phase 5 darts, Phil has already demonstrated DXM effectiveness repeatedly on live TV. Be warned! As the surface area of the flight decreases, you gain greater board visibility but the darts can be less stable. You need to be absolutely at the top of your game to get maximum advantage out of smaller flights! Learn more by reading the Uniblogs at [www.unicorn-darts.com](http://www.unicorn-darts.com)
