THE BIG NAME IN DARTS[®]

BOOK OF DARTS
2014
39TH EDITION

UNICORN-DARTS.COM

7 REASONS WHY UNICORN?

This Unicorn Book of Darts is designed to assist our trade customers around the World with their purchasing decisions.

You should stock Unicorn because:

1 UNDISPUTED	Unicorn design and engineering has powered more dart players to more World Titles than any other brand.
2 NEW PRODUCT INNOVATION	Unicorn lead and have led for over 75 years.
3 INVESTING	The PDC Unicorn Challenge Tour, The PDC Unicorn Youth Tour, The PDC Unicorn Youth World Championships creating aspirational opportunities for tomorrow's stars
4 CHOICE OF THE PDC	For 20 years until at least 2017 every dart thrown live on SKY TV uses Unicorn Eclipse Pro & Eclipse HD dartboards.
5 ON AIR	The Unicorn brand is exposed globally on TV for more than 5,000 hours each year, more than any other brand.
6 RECOGNITION	Unicorn spend more money on Brand Promotion than all other companies put together.
7 NAME	Since 1937, Unicorn – The Big Name In Darts.

These 7 reasons generate more demand for more profitable sales for the Unicorn brand from your customers than for any other dart brand.
IF YOU DON'T STOCK UNICORN, YOU ARE NOT IN THE DARTS BUSINESS.

Sigma X Cross Tip are Sigma certified in both steel tip and soft tip configurations. In both configurations the darts weigh the same - eg 18g Sigma X - when configured as the Steel Tip pointed barrel is 18g, when configured as the Soft Tip the all up weight is 18g. This allows the Cross Code player to always use the same barrels and weight.

SILVER COMET PRECISION DARTS

BRITISH PATENT No. 484,292. U.S. PATENT No. 2,182,296.

Introduced in 1937, these splendid darts have been unsurpassed in construction, design and popularity ever since. Over a quarter of a million sets have been sold to date and many of the original batch are still giving perfect service, as testified by many appreciative letters received from actual users. The plated brass body is fitted with a streamlined cap screwed on the rear end of the shaft. The flight is thus perfectly encased in metal and no loss of score is possible, because if a following dart hits the streamlined cap it glances off to lodge in the board.

SELECTING UNICORN FLIGHTS

UNICORN FLIGHT DESIGNS ARE UNIQUE AND ARE ONLY AVAILABLE FROM UNICORN

THE UNILAB FLIGHT SELECTOR TABLE

The UniBoffin Explains:

The right flights for you must match your particular darts, producing enough aerodynamic lift to stabilise them in-flight but not so much as to throw them off-course. UniLab and Unicorn Sigma darts use sophisticated mathematics to achieve this matching, but you can try yourself using the following table, some experimentation, and maybe a UniLab Flight Selector Kit!

The table below lists the surface area for current Unicorn flight shapes, a Lift Factor relative to the highest lift Big Wing flights, and a related Stability Factor. Flight weight also affects stability and, although the Stability Factor shown is for a standardised material, the table's last row shows the weight of a representative Plus flight in different materials. Heavier materials provide slightly less stability but improved durability, Maestro additionally offers more rigidity and therefore consistency of flight, and Q aims to provide this in a lighter flight.

There are no hard-and-fast rules on flights matching, but as a hint to using the table, if your darts are landing in the board at varying angles, try a higher stability flight, if they're landing true, a smaller, lower lift flight may improve accuracy, land flatter, and reduce bed-blocking.

FLIGHT SHAPE	AREA cm ²	LIFT FACTOR	STABILITY FACTOR (standardised material)	CHARACTERISTICS & COMMENTS			
Big Wing	44.741	1.00	1.00	The most lift from the biggest flight!			
Plus	39.614	0.87	0.93	A favourite all-purpose compromise			
Fin	38.765	0.78	0.90	An Xtra take off from a retro rocket			
Xtra	36.323	0.74	0.85	Works well with a straighter throw			
Slim	32.846	0.57	0.59	Works well with a flatter, direct throw			
DXM	26.585	0.51	0.57	For when you are playing at your best			
Sigma Flights				Mathematically matched to Sigma darts			
One	37.519	0.93	1.05	Stability-optimised stall-resistant design			
Pro	29.249	0.66	0.74	For accuracy with side-loading shafts			
Super Pro	25.265	0.55	0.59	Shorter for accuracy with end-loaders only

UNILAB FLIGHT SELECTOR KIT

- > A direct spin-off from UniLab, our unique online Darts Tuning application, the UniLab Flight Selector Kit enables you to experiment with different flight configurations.
- > Different flight shapes and sizes will alter a dart's trajectory, working aerodynamically in conjunction with your existing barrels and shafts.
- > Try these 5 different shapes to tweak your darts set up to improve your accuracy and consistency.

TO OUR CUSTOMERS....

Our aim is to make trading with Unicorn easy.

We try very hard to have an appreciation of our customers' problems and to have a minimum of rules.

We feel the stating of our policies will make it easier and more profitable for our customers to deal with Unicorn.

1. WARNING

DARTS IS AN ADULT SPORT. IT IS DANGEROUS FOR CHILDREN TO PLAY WITHOUT SUPERVISION. WE RECOMMEND THAT A DEALER SHOULD EXERCISE DISCRETION WHERE ANY SALE MIGHT RESULT IN CHILDREN PLAYING WITHOUT ADULT SUPERVISION.

2. DISTRIBUTION

We are geared to supply goods to accredited retailers only and thus cannot give satisfaction to clubs or individuals, whom we refer to local dealers, anxious and ready to provide a prompt and complete service.

3. SPECIFICATIONS

We have taken every care to ensure that the information detailed in this catalogue is truthful and accurate. All weights and sizes are approximate and for guidance and comparison only. Should circumstances arising subsequent to publication render as unavoidable some changes in production, Unicorn Products Limited reserves absolute discretion to make these or any other changes they deem necessary without notice or obligation.

4. PRODUCT IMPROVEMENT

Continuous research and development will bring about changes in design, material and arrangement of our products during the life of this catalogue. We shall pass to our customers such benefits or improvements as they occur by delivering the latest version of any product. Such improvements or modifications as may be introduced do not place us under any obligation to make similar changes in articles sold before the date of introduction.

5. STANDARD PACKS

Many of the items in this catalogue are prepacked in convenient size standard packs. The standard pack has been selected for ease of stocking and ordering, economy in production and to ensure safe transit of the contents. For these reasons we cannot split standard packs and where orders call for other than standard packs we shall adjust the order to the nearest pack quantity.

6. GUARANTEE

It is our aim to ensure the complete satisfaction of our customers and in case of a genuine complaint as to the quality of our goods, we shall be anxious to rectify any fault of our own free will and at our discretion only.

7. IMITATIONS

The design, construction and trade names of most of our products are protected by patents, design registrations, trade marks, copyrights and/or pending applications and rigorous action will be taken against all infringers to protect both dealer and users from imitation.

8. ACCEPTANCE OF ORDER

All orders are accepted by us on the understanding that our Conditions of Sale as stated in our current price list form the basis of the Contract of Sale entered into by the placing and acceptance of such orders.

"There is hardly anything in the world that some man cannot make a little worse and sell a little cheaper, and the people who consider price only are this man's lawful prey."

John Ruskin
